

## SANDWICH SUDOKU

Fill digits 1–9 in the empty spaces of the grid such that they appear exactly once in each row, column, and 3×3 square.

Number clues outside the grid are the sum of digits sandwiched between digits 1 and 9 in the corresponding row or column.

	10	0	19	10	7	35	0	8	7
0	5								
15	4			5	7				
14						2			
29				2					
32					4				
0			2						
29									
33						4			
2			7			9		6
