

SHIKAKU

Some cells of the puzzle grid have numbers given in them. The task is to divide the entire puzzle grid into rectangular and square pieces.

Each piece must contain exactly one given number, where that number represents the area of the rectangle or square.

			3		10				6
4				10					
		8							
						12	8		
		6							
			5						3
3		6	2				5		
3					6
