

## KUROCHUTE (BLACK SHOT)

Shade some cells in the grid black. A cell with a number indicates that only one of the cells at that distance must be shaded black.

No two black cells can be orthogonally adjacent. All of the white cells must be connected orthogonally.

1			1	2		1	2
3				2	1		
2						5	
1		3					
	3			3	2
