

GEMINI BLOCKS

Divide the grid into regions (or blocks) such that each region contains exactly one letter.

All blocks of a specific letter must be of the same size, shape, and orientation, irrespective of their place in the grid. Additionally, the letters in such twin blocks must be exactly at the same position.

H					I		J		
	G					H			K
			B	G	F				
	C					E	A		
E								D	
		C		A		L			
F					J			B	
D				I			L		K
