

NUMBER CROSS

Cross out (or shade black) some cells in the grid according to the sum clues given outside.

The number clues given outside the grid are the sums of the numbers in the unshaded cells in the corresponding row or column. This means that those numbered cells that do not sum to the number clues outside the grid need to be shaded black.

	12	5	11	9	9	13
13	7	5	6	7	3	5
	3	4	6	1	1	2
20	9	4	2	3	2	8
5	7	1	1	4	1	9
	1	2	4	3	5	2
1	2	5	9	1	2	7
