

## SANDWICH SUDOKU

Fill digits 1–9 in the empty spaces of the grid such that they appear exactly once in each row, column, and 3×3 square.

Number clues outside the grid are the sum of digits sandwiched between digits 1 and 9 in the corresponding row or column.

	0	0	20	27	14	3	0	2	33
25				1				6	
32		7							
24								4	
18
