FOUR CELLS

Divide the grid into regions of exactly four cells.

The number inside a cell represents how many of its four sides (including the border of the grid) are segments of region borders.

2			2	3		2	2		3
2	2	2	2	2				3	
2		3		2			2	3	2
	2				3				2
3	2	1	3			2		2	2
	2	3	3		2	2	3		3
2			2	3				2	2
	3			3		2	2	3	
		2	2	2	3	3			3
3	2	3	2		3				3
