

## TREN

Locate some blocks in the grid that have a size of either  $1 \times 2$  or  $1 \times 3$  cells.

Each number in the grid should be part of a block, and indicates the total number of possible movements of the block (if the block moves in one cell units).

Blocks can only move in the direction of their short edge.

4							4	
			1	1	4	3		
0			1					2
2								
							1	
0		0		0		2		
								1
	1		2					
	1		4
