

TRINAIRO

The objective is to fill the 9x9 grid with letters such that each row and each column contains three each of letters A, B, and C.

If a cell is marked/shaded, the letter in that cell differs from the letters in all its orthogonally adjacent cells.

A	C	A	A			C		
A		C	A				B	B
A			A	B	B			
		B	B	A				A
C					A		C	
C	B	B		C		A		
		C		B	A			B
				A		B		
B		C	C			B		C
