

## ENDORAIN

Draw horizontal and vertical lines between the centers of cells. Each line must connect two cells in different bold-outlined regions.

A number in a region indicates how many lines start/end in this region.

All cells in the grid must be used by the connecting lines.

3	1		2	2		1	
				1			1
1	1	2			1		
			1	2		1	
2		2	1		2	2	1
2			1	1			
3					1		
2		1				2
