

AQRE

Shade some cells black such that all black cells form one orthogonally connected area.

A numbered cell indicates how many cells in the region must be shaded black. In regions without a number, any amount of cells may be black (all cells may also be unshaded).

There cannot be more than three adjacent black or white cells in the grid.

6				1			4		
		1		3			3		
	3			5					
			3					2	
								2	
4		1						3	
		1				2			
1			6						0
				1			1	1	
1		2			1
