

FOUR CELLS

Divide the grid into regions of exactly four cells.

The number inside a cell represents how many of its four sides (including the border of the grid) are segments of region borders.

	2	2	2		3		3
2	2	2				3	
		2		2			1
2	2		2	2	3		
	2		2				3
3	2	2		3	2	3	
3	2	3	3			3	
2			2		3		2
