

# TETORON

Divide the grid into regions of exactly four cells (tetromino).

Each region should contain exactly two different symbols. Regions of the same shape must contain the same symbols.

The tetrominoes may be rotated or mirrored.

				□			□	□	
	○	○	◇	◇	△	△	□	△	
□	◇		□					◇	△
	◇		△		◇	△			□
△		□		△		○			
□						□		△	
	○	△		◇	◇		△	□	
	◇		□	△	□			△	
◇				◇	□		△	□	□
□		◇	□				△	◇
