

## AQRE

Shade some cells black such that all black cells form one orthogonally connected area.

A numbered cell indicates how many cells in the region must be shaded black. In regions without a number, any amount of cells may be black (all cells may also be unshaded).

There cannot be more than three adjacent black or white cells in the grid.

	2			2	2		1
			4			2	
2		2	1				1
2	1					1	
	0		2	2			2
1						0	
4			0	4		3	
0		1
