FROM 1 TO X

The grid is divided into irregular regions (indicated by thick black lines) and number clues are given outside the grid.

Each region must be filled with digits from 1 to the number of cells in that region. Same numbers must not be orthogonally adjacent.

The numbers outside the grid show the sums of the numbers in corresponding row or column.

	15	15	18	21	17	14
17					2	5
21		2				
17	2	1		4		2
16						
18	6	2	3			
11		1		1	3	1
