

CLOCKWORDS

In the crossword puzzle grid (A), letters have been rotated around all the numbered cells **1** to **4** once (and only once). There are two clockwise and two anticlockwise 90° rotations. Find the correct sequence of applied transformations and recreate the original crossword in the empty grid (B).

(A)

A	S	A	R	I
R	1	M	2	E
E	V	S	S	D
X	3	R	4	U
A	R	T	N	E

(B)

	1		2	
	3		4	

Transformation Sequence:
