

FLIPPIN' CLOCKWORDS

In the crossword puzzle grid (A), letters have been reflected along the vertical and horizontal planes that pass through all the numbered cells **1** to **4** once (and only once). There are two vertical and two horizontal flips.

Find the correct sequence of applied transformations and recreate the original crossword in the empty grid (B).

(A)

D	I	T	N	I
R	1	I	2	I
T	R	R	G	E
H	3	H	4	V
G	O	G	A	E

(B)

	1		2	
	3		4	

Transformation Sequence:
