

CONTEXT

Shade some cells in the grid black such that no two black cells are orthogonally adjacent and all white cells are connected horizontally or vertically.

A numbered cell can be shaded. A white numbered cell corresponds to the total number of orthogonally adjacent black cells.

A shaded numbered cell should indicate the number of diagonally adjacent black cells.

1		1				1			1	
1			1		2		2			1
								1		1
1				1	2					
					2		2	1		1
2			2	2						
	1									2
2	1		2		1		3			
				2			0			
				1					2	
	2					2
