

FOUR CELLS

Divide the grid into regions of exactly four cells.

The number inside a cell represents how many of its four sides (including the border of the grid) are segments of region borders.

3				3	2			2	3
3	3	2	2			3	3	2	
2	3				3			2	3
2		3	3				3		
	2	3		2	3		3		2
3	2	3		3	3	2		3	3
3	2			1		2	3		
	1	3		3	3				3
3			1	3					2
	2	3			2	2	2		2
