

## SANDWICH SUDOKU

Fill digits 1–9 in the empty spaces of the grid such that they appear exactly once in each row, column, and 3×3 square.

Number clues outside the grid are the sum of digits sandwiched between digits 1 and 9 in the corresponding row or column.

	6	29	9	7	0	5	28	11	6
6									
0							9	8	
15								6	
7				3		9			
32							2		
10	7				2		6		
5									
9									
5	8
