

## SANDWICH SUDOKU

Fill digits 1–9 in the empty spaces of the grid such that they appear exactly once in each row, column, and 3×3 square.

Number clues outside the grid are the sum of digits sandwiched between digits 1 and 9 in the corresponding row or column.

	16	0	0	35	0	33	0	14	20
3					5				
15						1			8
0						3			
11						6			
4		3							
16							9		
24				8					
35			4						
6
