TRINAIRO

The objective is to fill the 9x9 grid with letters such that each row and each column contains three each of letters A, B, and C.

If a cell is marked/shaded, the letter in that cell differs from the letters in all its orthogonally adjacent cells.

	A		C			B	B	
B	B	A		C				
				C		B		
			A		C		A	A
		C						
C						B		C
	A		B	B	B	A		
			A	B				A
B		B	A		C			A
